

This combination of a welding shield and safety helmet with an integrated air distribution system provides sufficient protection of the head, breathing paths, eyes and ears in extremely heavy industrial environments.

Despite its robust construction it is a well-balanced and comfortable helmet. The integrated air duct ensures a balanced distribution of filtered air into the breathing zone and a high level of protection of the welder's respiratory system. The flip-up welding shield is equipped with a high quality auto-darkening filter Balder V9-13 DS.

Advantages

- Combination of four protective systems in one unit:
 - head protection / respiratory protection
 - eye protection / ear protection
- Well-balanced, comfortable
- High mechanical resistance

Areas of application

- Heavy industrial environments
- Automotive industry
- Shipbuilding industry
- Building industry

Technical data	
Weight	1100 g
Dimensions	300 mm / 240 mm / 320 mm
ADF opening	110x90 mm
Viewing area	96x46,5 mm
Colour	metallic blue
Protection factor (NPF)	50
Certification	EN 12941 TH1/TH2, EN 14594 2A/2R, EN 397, EN 175

Product description	Product code
Complete hoods	
Safety helmet CA-40 with integrated air distribution and ADF Balder V9-13DS	70 40 01
Safety helmet CA-40 with integrated air distribution without ADF	70 40 00
Spare parts, accessories	
Face seal CA-40	70 40 60
Earmuffs No.8, SNR-26	70 40 40
Earmuffs No.10, SNR-29	70 40 41
Earmuffs No.12, SNR-32	70 40 42
Welding shield CA-40	70 40 02
Fixing set for ADF	70 40 43
Auto-darkening filter Balder V9-13 DS	40 50 40
Protection plate - external	70 40 80
Protection plate - internal 107x50 mm	*107/50
Headband	70 40 41x
