

KM 501 M-Power Water-Cooled Inverter

The KM 501 M-Power Water-Cooled Inverter is a heavy-duty inverter based welding

package for MIG/MAG and MMA (Stick) welding.

Built to withstand rugged use which makes it a perfect solution for industrial environments.

Ideal for heavy industries using solid and flux-cored wires.

- Advanced multi process machine offering MIG, Lift-TIG and MMA welding capabilities
- Excellent power output range (20 -500 amps) with infinitely variable welding output control
- High duty cycles (500 Amps @60% Duty Cycle, 400 Amps @100% Duty Cycle)
- Up to 35% power saving due to advance Eco-Weld Technology
- Heavy-Duty European made 37mm 4 Wheel Drive Wire Feed Unit with Digital Encoder
- Very easy-to-use front panel
- Hot start and crater-fill welding control

- 2T & 4T Trigger Control
- Inching & Gas-Test Control
- High-speed inverter offering an extremely stable arc
- Smart-Cool Intelligent Fan Technology
- Thermal Overload Protection with advanced Error Code Functionality
- Wind Tunnel Design all critical components fully protected from grinding dust and spatter
- Supplied with heavy-duty running gear and gas bottle rack
- 100% Generator Compatible

Technical Specifications

Mains Voltage (VAC)	400 ± %10
Ampere Range (A)	20-500
Duty Cycle (40oC)	%60: 500 A, 36.5 V
	%100: 400 A, 32.0 V
Maximum Input Power (kVA)	24.8
Open Circuit Voltage (VDC)	90
Height (mm)	453
Width (mm)	244
Length (mm)	701
Net Weight (kg)	60
Standard Accessories	3 m Power Cable (4 x 6 mm²)
	3 m Ground Cable (50 mm²)
	Gas Regulator
	3m 400A Torch
