

CleanAIR AerGO® – universal powered air purifying respirator designed for personal respiratory protection in dusty industrial environments including areas with contaminants in the form of gases and vapours.

The unit is provided with a control system of constant air flow and an advanced electronic system for warning the wearer in the case of a sudden decrease of airflow or low battery charge. The ergonomic shape, low weight and slim profile of the unit guarantee a high level of user comfort, even in environments with limited possibilities of movement. The unit is compatible with a wide range of CleanAIR® headtops for various industrial applications.

Areas of application

- Dusty industrial environments, including areas with contaminants in the form of gases and vapours
- Automotive industry, shipbuilding industry
- Welding, grinding, surface finishing operations
- Building industry, agriculture

Advantages

- Ergonomic shape and low weight – only 980 g
- Slim profile of the unit – only 65 mm
- Universal usage – filtration of particulate contaminants, gases and vapours
- Operation time up to 10 hours (with a new filter P R SL and airflow 160 l/min)
- Short battery recharging time < 3 h
- Adjustable airflow (160 lpm and 210 lpm)
- Controlling the constant airflow without regard to the state of the filter and the battery capacity
- Audiovisual and vibrating alarm indicating low airflow and low battery charge
- Simple control with only one button
- Ergonomic and comfortable belt which is easy to exchange
- Unique solution of the filter sealing which provides a perfect unit seal after every change of the filter
